Video 2: How Our Risk Team Helps You Prevent Losses *Explainer Video Script*

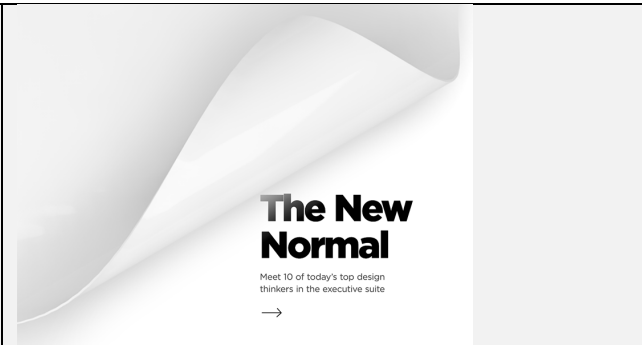

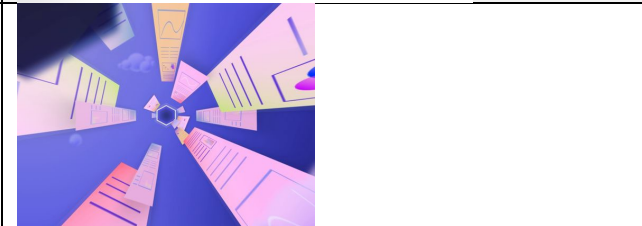

VO	Shots	Visuals
<p>Our risk team has our merchants' best interests at heart.</p>	<p>Many circles arranged in a way that it reads "Our Risk Team". The circles move around and form a heart shape.</p>	

<p>They closely monitor the activity and patterns on merchant accounts</p>	<p>The circles move once again into a set of eyes. The eyeballs start moving left to right like they are monitoring something.</p>	
<p>to help the merchants prevent losses.</p>	<p>Some circles start disappearing/falling down.</p>	
<p>Some transactions raise flags</p>	<p>We move closer into the circles and they change shape into 3D squares appearing in isometric perspective. Red flags start raising on few of them.</p>	

<p>because they fall outside the established historical parameters on the account, so they must be verified.</p>	<p>The camera moves through all of them. We get a close-up on one of the flags when appearing on the screen.</p>	
<p>In these rare cases, we ask merchants to provide us with a</p>	<p>Text appears on the screen: "In these rare cases". A few circles go around the text.</p>	
<p>detailed invoice, receipt, or other documentation to support a specific transaction.</p>	<p>Images of invoices and receipts appear on the screen. Texts get written down below them.</p>	
<p>Sometimes due to the nature of the activity, it may be necessary</p>	<p>The camera moves down. The circle appears on the screen again and jumps up and down through a hoop in the middle of the scene.</p>	

<p>to withhold funding for the related deposits until we can verify the activity.</p>	<p>Prison bars fall down in front of the circle.</p>	
<p>A prompt and complete response to our risk team's inquiries enables us to complete our review quickly and reduce unnecessary delays.</p>	<p>A clock appears on the screen and the circle rotates a few times around it. Text on screen: reduce unnecessary delays</p>	
<p>We typically require additional information on the customer and the transaction in question to release funds.</p>	<p>The circle falls down on an icon of a customer and then jumps right to an icon of a transaction. The circle scales up and becomes the background of the next scene.</p>	
<p>The request can include the cardholder's name as it appears on the card,</p>	<p>A zoomed in 3D credit card. The camera moves left to right on the name on the card. The name that will appear is Nuvei Technologies</p>	

<p>the cardholder's billing address,</p>	<p>A zoomed in 3D piece of paper. The camera moves left to right showing the address.</p>		
<p>the postal code,</p>	<p>The camera continues the movement and we see the postal code.</p>		
<p>contact information,</p>	<p>The camera continues the movement and we see an email and phone number.</p>		

<p>a description of the goods/services sold, a signed transaction receipt, and more.</p>	<p>Many pieces of paper roll on the screen. Each paper is a receipt or invoice.</p>	
<p>If the documentation is sufficient and we can verify the transaction, the funds are released,</p>	<p>The circle is on the screen behind bars. The bars move away and the circle is released. It jumps up and down couple of times.</p>	
<p>and no further action is required.</p>	<p>Nuvei's logo gets animated on the screen and the circle falls on the "i".</p>
